

**Roland DG Academy**

## Courses in Roland VersaWorks RIP

All Roland printers and printers/cutters come equipped with Roland's RIP software VersaWorks – free of charge. In order for you to get the most out of your printer or printer/cutter VersaWorks has been developed specifically and exclusively for Roland DG products.

VersaWorks contains a large number of exclusive features that can be of help in your daily work. Features that we would like to tell you and your colleagues more about through our courses.

### **VersaWorks Advanced**

VersaWorks Advanced provides a more exhaustive insight to the color management in VersaWorks. The course is aimed at users who have some experience with the functions of VersaWorks RIP but wishes to learn more about how to optimize the print set-up. The course will touch upon features such as Spot Color, Named Color, VersaWorks System Color and color management.
