

**Roland DG Academy**

## Courses in Roland VersaWorks RIP

All Roland printers and printers/cutters come equipped with Roland's RIP software VersaWorks – free of charge. In order for you to get the most out of your printer or printer/cutter VersaWorks has been developed specifically and exclusively for Roland DG products.

VersaWorks contains a large number of exclusive features that can be of help in your daily work. Features that we would like to tell you and your colleagues more about through our courses.

### Media profiling in VersaWorks

Media profiling is a course with focus on media use in VersaWorks RIP. The course is aimed at users who wish to either create their own specialized media profiles or learn more about colors. The course will touch upon elements such as linierizing, Max Ink, Single Ink Limit and ICC profiling. Moreover, participants will be taught how to operate profiling equipment and ICC software.
